Here's What They Say About Classroom Management with Harry and Rosemary Wong

I am in my second year of teaching and this course has taught me more in two months that I had learned in four years of college. **This course is realistic** and teaches the teacher how to set the tone. I began this course in January, with a continuing tough group of kids, and within a month I have straightened their behavior and willingness to learn and that was half way through the year!!! I learned so much from taking this course. Thank you, thank you and thank you!!!

*Rachel Conti
Gurney Elementary School
Chagrin Falls, OH*

I took this course because I work with new teachers in our district. I tell them that I am a lousy disciplinarian, but a good classroom manager. **If they will follow my advice and have a plan for everything that they do, they should not need to discipline a child.**

*Joan Davis
Hampton City Schools
Hampton, Virginia*

If every teacher would implement these procedures, we would all have **successful students.**

*Christine Cook
Dairyland School
Chonchilla, CA*

I have had the best school year EVER of my teaching career. At the beginning of the year, I implemented many of the topics covered in the course. THANKS SO MUCH!!!

*Charity Peters
Grove School
Shawnee, OK*

This course is absolutely fabulous! There are many things I can use and will implement next year.

*Rebecca Juarez
Laredo Independent School District
Laredo, TX*

This should be a required course in teacher education. Your book, video tapes, and on-line course have made a world of difference in our school.

*Angie Mutter
Riverview ES/MS
Grundy, VA*

Your ecourse was a Christmas present after I received the offer of a position at year 7 (grade 7) and I can't tell you how well it served me. Procedures are in place, expectations are high, and the environment is safe, comfortable, and fun for the children. **It is a learning classroom.** My mentor is very impressed with the structure and has written several good reports and observations of me. Thank you for sharing your knowledge.

*Stephen Jones
Auckland, New Zealand*
