

Instructional Strategies in the Visual Arts

COMPONENT #: 2-000-325

POINTS TO BE EARNED: 120 MPP

PART I – PLANNING

DESCRIPTION: Write a brief description of content and intent of component.

This component is designed to enable the participant to identify, research, and implement research-based and current instructional strategies, innovative teaching techniques and/or new instructional materials that can be used to improve the instructional process and/or the participant's professional development.

Upon successful completion of this professional development activity the participant will apply newly acquired professional knowledge, skills, dispositions, and behaviors to improve his or her practice.

STANDARDS/FOCUS AREAS ADDRESSED BY COMPONENT: Identify the standards, national/state/district imperatives, initiatives or key focus areas this component supports.

Instructional Strategies in the Visual Arts

COMPONENT #: 2-000-325

SPECIFIC LEARNER OUTCOMES: Identify the intended learner outcomes (number and content of learner outcomes should be reflective of the total points participants will earn as a result of completing this learning).

1. Identify and describe innovative strategies, techniques, and/or materials appropriate for implementation or utilization in the visual arts for levels K-12.
2. List and discuss innovative techniques, strategies, and/or materials, and describe in writing how each can be adapted to support issues and developments in visual arts for levels K-12.
3. Identify current research issues and developments in the field of visual arts for levels K-12.
4. List practical applications of the research in the classroom including strategies that promote creative/critical thinking capabilities of students.
5. Develop skills in analyzing and assessing instructional materials.
6. Develop activities that integrate technology into the curriculum and applies technology to organize and integrate assessment information.
7. Develop activities that address the issues surrounding the diverse needs of learners.
8. Research and analyze alternative delivery systems such as distance learning and the use of new technology.
9. Examine equitable methods, techniques, and practices addressing the needs of all students.
10. Research, analyze, and implement the principles of continual quality improvement for professional growth.
11. Relate and integrate the subject matter with other disciplines and life experiences.
12. Designs, aligns and develops formative and summative assessments that match learning objectives and lead to mastery.
13. Researches and utilizes current and emerging assistive technologies that enable students to participate in high-quality communication interactions and achieve their educational goals.
14. Research and analyzes a variety of data, independently, and in collaboration with colleagues, to evaluate learning outcomes, adjust planning and continuously improve the effectiveness of the lessons.

PART II – LEARNING

LEARNING PROCEDURES: Describe the experiences (the “what”) and formats/methods (the “how”) that will be used to provide participants with the knowledge and skills sufficient to master the intended learner outcome of this component.

1. Participate actively in discussions and activities on innovative strategies/techniques, technology integration and/or materials for specific instructional objectives (SLO 1-10).
2. Introduce and discuss how the innovative strategies, techniques, technology integration, and/or materials can be used to support specific instructional objectives (SLO 1 - 10).
3. Implement specific instructional strategies and activities that will address the needs of diverse learners (SLO 2, 7, & 9).
4. Provides a product related to the training verifying that the learning involved in the professional development was understood with feedback to the learner through collaboration and independent learning.

COMPONENT #: 2-000-325

5. Provides evidence (e.g. student work, pre and post assessments, surveys) verifying that the content impacted student achievement for the instructor to review and give feedback for modifications.
6. Monitor and adjust programs, as needed, as a result of the implementation feedback and findings.
7. Learner will engage in mentor/coaching activities which may include but not be limited to direct observation, conferencing, oral reflection, lesson demonstration and/or follow up session(s).

PART III – IMPLEMENTATION

IMPLEMENTATION PROCEDURES: Method(s) and resource(s) that will be provided to support implementation of new learning for participants (check all that apply).

- Apply newly acquired professional knowledge, skills, dispositions, and behaviors to improve practice.
- Provide sufficient classroom- and school-focused support and assistance by skillful coaches, mentors, or others to the educator to ensure high-fidelity implementation of professional learning.
- Provide educators with web-based resources and assistance to support implementation of professional learning.

PART IV – EVALUATION

IMPACT EVALUATION PROCEDURES: Describe the processes that will be used to determine the impact (as identified in previous section titled “Impact Focus Areas”). Description should reflect methods for determining at least ONE of those areas, and will include a specific section for each impact focus area identified for this component.

1. Educator Knowledge/skill: Will consist of observation of participants using the identified skills, techniques, methods, specified in the component objectives during the learning events and will also include reflective journal entries after receiving feedback from peers.
2. Educator: Evidence will include classroom walk-throughs, student portfolios, surveys, participant reflections, participant portfolios.
3. Student Learning: Will include evidence of implementation through documented impact on student achievement; will also include results from teacher surveys, portfolios, activity logs, parent surveys, student surveys/self-reporting, and teacher discussions.

COMPONENT EVALUATION PROCEDURES: Describe the process(es) that will be used to determine the effectiveness of this component to include design, implementation and impact (check all that apply).

- Evaluate the impact of all professional learning on educator’s practice through reflection, assessment, collaborative protocols for examining educator practice and work samples, peer visits, and/or professional portfolios.
- Determine the degree to which educator’s professional learning contributed to student performance gains as measured by classroom assessment data.

Instructional Strategies in the Visual Arts

COMPONENT #: 2-000-325

- Use summative and formative data from state or national standardized student achievement measures, when available, or other measures of student learning and behavior such as district achievement tests, progress monitoring, educator-constructed tests, action research results, discipline referrals, and/or portfolios of student work to assess the impact of professional learning.
