Advanced Academics: Gifted

COMPONENT #: 2-106-322

SPECIFIC LEARNER OUTCOMES: Identify the intended learner outcomes (number and content of learner outcomes should be reflective of the total points participants will earn as a result of completing this learning).

1. Identify current research, development and practical application issues in the field of gifted education.
2. Examine the strategies and techniques for the purpose of adapting the materials to various student achievement levels.
3. Develop skills in analyzing and assessing instructional materials appropriate for gifted learners.
4. Develop activities that integrate technology into curricula for the gifted.
5. Identify curriculum resource materials that are designed to meet the instructional needs of the gifted program.
6. Examine techniques that address students' interests and abilities.
7. Develop activities that integrate thinking skills into curricula for the gifted.
8. Identify teaching methods related to the gifted program.
9. Develop a framework and learning environment for the gifted program.
10. Apply strategies and techniques for structuring a variety of classroom interactions into curricula for the gifted.
11. Identify and analyze data related to the gifted program.
12. Utilize a variety of assessment strategies to measure student success.

PART II – LEARNING

LEARNING PROCEDURES: Describe the experiences (the “what”) and formats/methods (the “how”) that will be used to provide participants with the knowledge and skills sufficient to master the intended learner outcome of this component.

1. Attend and participate actively in the instructor's lectures and presentations on classroom issues and strategies in gifted program.
2. Develop practical applications of the research in the classroom and techniques for adapting the materials to various levels of student achievement.
3. Develop instructional materials and integrate instructional technology into the discipline.
4. Create a materials resource bank that will meet the instructional needs of the discipline.
5. Develop specific lessons based on current research data and new materials geared towards gifted students.
6. Provide evidence (e.g. student work, pre and post assessments, rubrics, surveys) verifying that the content impacted student achievement.

PART III – IMPLEMENTATION

IMPLEMENTATION PROCEDURES: Method(s) and resource(s) that will be provided to support implementation of new learning for participants (check all that apply).

- X Apply newly acquired professional knowledge, skills, dispositions, and behaviors to improve practice.
- X Provide sufficient classroom- and school-focused support and assistance by skillful coaches, mentors, or others to the educator to ensure high-fidelity implementation of professional learning.

Advanced Academics: Gifted
COMPONENT #: 2-106-322

- X Provide educators with web-based resources and assistance to support implementation of professional learning.

PART IV – EVALUATION

IMPACT EVALUATION PROCEDURES: Describe the processes that will be used to determine the impact (as identified in previous section titled “Impact Focus Areas”). Description should reflect methods for determining at least ONE of those areas, and will include a specific section for each impact focus area identified for this component.

1. Educator Knowledge/skill: Will consist of observation of participants using the identified skills, techniques, methods, specified in the component objectives during the learning events; will also include reflective journal entries of participants after receiving feedback from their peers.
2. Student Learning: Evidence will include evidence of implementation through documented impact on student achievement.

COMPONENT EVALUATION PROCEDURES: Describe the process(es) that will be used to determine the effectiveness of this component to include design, implementation and impact (check all that apply).

- X Evaluate the impact of all professional learning on educator’s practice through reflection, assessment, collaborative protocols for examining educator practice and work samples, peer visits, and/or professional portfolios.
- X Determine the degree to which educator’s professional learning contributed to student performance gains as measured by classroom assessment data.
- X Use summative and formative data from state or national standardized student achievement measures, when available, or other measures of student learning and behavior such as district achievement tests, progress monitoring, educator-constructed tests, action research results, discipline referrals, and/or portfolios of student work to assess the impact of professional learning.
