## PART IV – EVALUATION

**IMPACT EVALUATION PROCEDURES:** Describe the processes that will be used to determine the impact (as identified in previous section titled “Impact Focus Areas”). Description should reflect methods for determining at least ONE of those areas, and will include a specific section for each impact focus area identified for this component.

1. Educator Knowledge/skill: Will consist of observation of participants using the identified skills, techniques, methods, specified in the component objectives during the learning events; will also include reflective journal entries of participants after receiving feedback from their peers.
2. Educator: Evidence will include classroom walk-throughs, student materials, parent communication, surveys, participant reflections, participant portfolios.

**COMPONENT EVALUATION PROCEDURES:** Describe the process(es) that will be used to determine the effectiveness of this component to include design, implementation and impact (check all that apply).

- Evaluate the impact of all professional learning on educator’s practice through reflection, assessment, collaborative protocols for examining educator practice and work samples, peer visits, and/or professional portfolios.
- Determine the degree to which educator’s professional learning contributed to student performance gains as measured by classroom assessment data.
- Use summative and formative data from state or national standardized student achievement measures, when available, or other measures of student learning and behavior such as district achievement tests, progress monitoring, educator-constructed tests, action research results, discipline referrals, and/or portfolios of student work to assess the impact of professional learning.
